Still a bit of a mess, but we're working on it.

The ISC Wiki

Welcome to the ISC documentation Wiki for the ISC bachelor program happen !. This wiki is intended to provide information and documentation on :

- The **computational resources** available to the collaborators and students active in the program.
- The **infrastructures and hardware resources**
- The **tools for students**
    - The **documentation templates and tools** student:templates
- The **tools for teachers**
    - The **software tool chains and resources** available for your building new pedagogical material
    - The **documentation tools** available for your building new pedagogical material
    - The **proctoring solutions** for creating exams in different contexts within ISC

It also provides information on the available hardware resources that can be used in different contexts such a public presentations etc…

Contributing

The site is just starting and your contributions are more than welcome and do not hesitate to populate the wiki. For creating content, you can either use either the `DokuWiki` or `MarkDown` syntax. The documentation on how to edit pages is described in this page.

Accessing the site

Do not hesitate to contact the site admin (Pierre-André) if you require an editor access to the Wiki or access to restricted areas of the site.
